## WHITTAKER™ HEALTH

---

*A modular collection, Whittaker Health combines light and slender volumes with a sophisticated, industrial aesthetic. The family's individual components can be used as independent elements or freely combined to adapt to healthcare environments. The upholstered body and cushions feature clean-out as standard for ease of cleanability, along with a taller seat height, and optional intermittent arms. Whittaker is the perfect blend of high designed furniture that can meet the demands of today's health environments, while still looking modern with a clean aesthetic.*
